New Features Added Since 20130415 release:

* Fixed an issue with checking existence of AD file
* Added password reset functionality

If you do not import the new database schema directly, the following should work to upgrade from version 201304015 to 20130501-001:

Upgrade Commands:

```
CREATE TABLE `simplerisk`.`password_reset` (
`username` VARCHAR( 20 ) NOT NULL ,
`token` VARCHAR( 20 ) NOT NULL ,
`attempts` INT NOT NULL DEFAULT '0',
`timestamp` TIMESTAMP NOT NULL DEFAULT CURRENT_TIMESTAMP
) ENGINE = MYISAM ;

DELETE FROM
`simplerisk`.`settings` WHERE
`settings`.`name` = 'app_version';
```
